

BUSINESS AUTOMATION SOFTWARE FOR PRINT AND PACKAGING

EFI Monarch iPhone App

Extend Your Network Reach with the New EFI Monarch iPhone App for iPhone, iPad and iPod Touch*

It has become increasingly necessary to come up with more and faster ways to access data remotely, from acquiring contact information to checking the status of a customer's job in plant.

EFI™ created the Monarch iPhone App to address this need. The app enables estimate and quote review and email dispatch, job status review, and access to customer account information. Additionally, your remote personnel can use the Geo Locate feature to identify other customers nearby, mapping a route to their doorstep.

The Monarch iPhone app is part of EFI's global connectivity efforts to provide your enterprise with access to mission

critical information collected and managed by your Monarch Print MIS/ERP. The app is available at the iTunes App Store and is compatible with the iPhone, iPod Touch and iPad. The app is free but requires the EFI Monarch iPhone webserver. Please contact your EFI rep for pricing and availability.

*Access on the iPhone, iPad and iPod Touch available via Wi-Fi. Data plans required for access by the iPhone and iPad where Wi-Fi is not available.

BUSINESS AUTOMATION SOFTWARE FOR PRINT AND PACKAGING

EFI Monarch™ is a flexible, powerful, intelligent, and automated print production and management solution for large, single and multi-plant operations handling everything from the most basic jobs to the most complex projects. Monarch is multi-company, multi-division, multi-language and multi-currency capable.

Scalable to 5,000 users, Monarch offers a high degree of functionality and flexibility for the efficient management of all product and work types, including: web, sheet, screen, inkjet, digital, and flexographic.
