

Date Issued: Tue 4/7/2009  
Fiery Central Version: 1.5.3

This document contains information about the EFI Flow Image Enhance module. Before installing the Image Enhance module software version 1.5 Update 3, make a copy of these *Release Notes* and distribute them to all users.

### **New Features of Fiery Central v1.5.3**

- Addition of CMYK image processing
- User Interface improvement
- Localization improvements

### **Updating Procedures**

Before you install the Image Enhance software, you must have Fiery Central version 1.5.3 and the Flow module installed. For information about installing the Fiery Central software, see the *EFI Fiery Central User Guide*, specifically the chapter entitled *Installing Fiery Central Server Software*.

### **TO INSTALL THE IMAGE ENHANCE SOFTWARE**

1. Go to [www.efi.com](http://www.efi.com)
2. Click the Support tab.
3. Under Production Printing Solutions, click the EFI Fiery Central link.
4. Click the Downloads & Demos link located on the left-side of the web page.
5. Log on using your e-mail address and then click Enter Site. If you are not registered, please register and then log on.
6. Click the EFI Software link located on the left-side of the web page.
7. In the EFI Software list, click Fiery\_Central — 1.5.
8. Click the ImageEnhanceU3\_FieryCentral15.zip link.
9. Read the license agreement and then click Accept if you agree to the terms.
10. Download and save the file to the Desktop.
11. Right-click the ImageEnhanceU3\_FieryCentral15.zip folder and choose Extract All. The Extraction Wizard appears. Use the Extraction Wizard to select a destination for the extracted files.
12. Double-click the ImageEnhanceU3\_FieryCentral15 folder from the location specified in [step 11](#).
13. Double-click the ImageEnhanceU3\_FieryCentral15.exe file and follow the prompts to install the Image Enhance software.
